

For 70 years, Charles River employees have worked together to assist in the discovery, development and safe manufacture of new drugs. We are passionate about our role in improving the quality of people's lives. Our mission, our excellent science, and our strong sense of purpose guide us in all that we do. We approach each day with the knowledge that our work helps to improve the health and well-being of many across the globe. Our collective efforts as One Charles River are the key to our success, and we know that every person is important. We are committed to empowering our employees with the tools and programs they need to develop rewarding and fulfilling careers.

The Charles River Insourcing Solutions Division will be partnering with Baylor College of Medicine's Comparative Medicine department to staff several positions from entry level to leadership roles (listed below). These positions can be viewed at www.criver.com/careers; please view and apply for any opportunity that meets your career goals.
